

4.7 - Interfaces

The "Interfaces" form is used for configuring the various interfaces available in moveon, such as the interfaces with moveonline or moveonnet, the interfaces with the student management or payment software programs and the interfaces with the national Erasmus agencies.

The screenshot shows a web application window titled "Interfaces". Inside, there is a section for "Erasmus" with a "Year" dropdown menu set to "2009/10". Below this, there is a table with 16 rows, each representing a different interface configuration option. The first column lists the option name, and the second column is a text input field containing the current value. The options and their values are:

Option	Value
Funding SMS	Erasmus-SMS
Funding SMS EILC	Erasmus-SMS-EILC
Funding SMS SEV	Erasmus-SMS-Handicap
Funding SMP	Erasmus-SMP
Funding SMP EILC	Erasmus-SMP-EILC
Funding SMP SEV	Erasmus-SMP-Handicap
Funding STA	Erasmus-STA
Funding STA SEV	Erasmus-STA-Handicap
Utilisation type STA Travel 2009/10	
Utilisation type STA Subsistence 2009/10	
Funding STT	Erasmus-STT
Funding STT SEV	
Utilisation type STT Travel 2009/10	
Utilisation type STT Subsistence 2009/10	

At the bottom of the window, there is a footer with the text "moveon 3.1.00 - User: admin" and "Copyright QS unisolution GmbH 2010".

Fig. 1: "interfaces" form, erasmus interface

To open the "Interfaces" form, click "Configuration" in the main menu and then "Interfaces".

You can select the interface you require from a drop-down list in the upper part of the form. To modify the interface settings, click Modify.

The Erasmus interface is described in section 7.4, the moveonline interface in chapter 9. The other interfaces specific to each country are described in detail in chapter 11.
